

AusACPDM Listening and Sharing session

Co-design of a novel knowledge translation tool: Australian Selective Dorsal Rhizotomy (SDR) Decision Aid

Join us in our free listening and sharing session

Wednesday 30th October at 4pm AEDST

This interactive AusACPDM Listening and Sharing session will be about:

Join us for the launch of the SDR Decision Aid. The SDR Decision Aid provides evidence-based information about SDR that is easy-to-understand, accessible and relates to our Australian experience. The purpose of the SDR Decision Aid is to start the conversation with families when discussing SDR as a treatment option for children with bilateral spastic cerebral palsy so that the right decisions can be made for right child at the right time.

This session will be of interest to clinicians, researchers, students and people with lived experience.

Presenters and panel members include: *Jenny Lewis (CHW NSW), Dr Neil Wimalasundera (RCH Vic), Meredith Wynter (QCH Qld), Felicity Baker (WCH SA).*

The session will be facilitated by: *Dr Simon Paget (CHW NSW)*
